**Viera, Fla.** — Brevard County has 245 confirmed cases of COVID-19 in the community. This information is updated twice a day and can be found on the Florida Department of Health's [COVID-19 webpage](#).

The Florida Department of Health in Brevard County (DOH-Brevard), along with healthcare partners, local government and other community partners are monitoring the COVID-19 situation and protecting the public. To keep the community informed of the status of these efforts, DOH-Brevard will be providing recurring updates.

"The importance of communications during times like this cannot be understated," said Maria Stahl, DOH-Brevard Health Officer. "We are in continuous contact with county-wide hospital systems, long-term care facilities, urgent care centers, Brevard Health Alliance, Brevard County Emergency Management, Brevard 2-1-1, Brevard County Jail, county officials, first responders and law enforcement."

"It is essential that elected officials at all levels of government continue to develop and implement appropriate and measured policy based upon apolitical expert medical advice such as that provided by epidemiologists, immunologists, community health directors, and hospital system administrators," said Brevard County Commission Chair Bryan Lober. "Between ongoing accessibility and data-driven expert opinions rendered by knowledgeable staff, FDOH has unquestionably prevented illness and saved lives."

### Community Actions Being Taken to Respond to COVID-19

- DOH-Brevard established a COVID-19 call center for residents. The phone number is 321-454-7141 and is staffed Monday through Friday from 8:00AM to 5:00PM.
- Residents can call 2-1-1 for up to date COVID-19 information between 8:00AM and 6:00PM daily.
- Brevard County Emergency Management provides daily COVID-19 information through their [website](#), Brevard County Emergency Management Facebook page, and twitter @BrevardEOC.
- Team Rubicon and Brevard County's Voluntary Organizations Active in Disaster have been instrumental in Brevard County's response to COVID-19 pandemic. These groups along with Emergency Management have received and distributed food to existing and pop-up food pantries as well as supplies to various agencies and facilities.

- DOH-Brevard is providing COVID-19 education and prevention information for distribution through the faith-based pop-up food pantries
- United Way of Brevard provides information about available resources to assist Brevard's individuals and families impacted by COVID-19 on their [website](#).
- Brevard County Public Schools continues to offer meals for students are free or reduced lunch at 27 food distribution sites. Click this [link](#) for information.
- Space Coast Area Transit has waived fares through April 30. Bus routes are now available between 7 AM and 6 PM.

"Health First is working tirelessly to protect Brevard families from COVID-19," said Dr. Jeffrey Stalnaker, Health First Chief Physician Executive. "We are proud to provide free COVID-19 tests to Health First associates in identified areas and first responders, as well as expansive online healthcare services to help keep the community healthy. In a \$2 million project, Health First converted 208 regular hospital rooms to negative pressure rooms to treat those with respiratory illnesses, including COVID-19. Health First's free online COVID-19 symptom checker and stress support helpline are crucial and easy-to-use tools to help protect physical and mental health, and our Virtual Visits allow over 1,000 patients a day to connect with their primary care physician from the comfort of home. Health First also implemented a universal masking policy so that all associates, physicians and guests are required to wear masks. Health First is here for Brevard County during these difficult times, offering high-quality, trusted and reliable healthcare."
